

A decorative border with a repeating floral pattern of green leaves and yellow flowers on a blue background, framing the central text.

As the flower is drawn  
towards the sun for the  
higher sustenance of the plant  
and the evolution of the planet,  
so our minds can find,  
through contemplation of  
Creation and the Universe,  
the ideals and truths  
that nourish the soul and inspire  
our development and growth.
